## MEMORANDUM FOR THE RECORD

FROM: [REDACTED]

Chairman, Fine Arts Commission

SUBJECT: Art for the New Building

1. During the week of 21 September, members of the Fine Arts Commission will begin detailed discussions with representatives of the National Endowment for the Arts (NEA) regarding art for the new building. This project is being conducted on an overt basis in conjunction with the General Services Administration (GSA); it is, therefore, highly likely that it will eventually be reported in the open press.

2. In anticipation of this publicity, I contacted the Public Affairs Office [REDACTED] the Office of the Comptroller [REDACTED] and the Office of Congressional Affairs (Dave Gries). [REDACTED] will apprise the D/PAO of this matter upon his return and arrange for me to give him further details. [REDACTED] indicated that the Comptroller has already informed the Congressional Oversight Committees that we will be spending up to about \$500,000 on this art.

3. Since the Oversight Committees have been apprised, any such publicity should be relatively painless.
